

YOUR 5-POINT **CYBER RISK** ASSESSMENT CHECKLIST

Protect your business from cyber threats before they strike. Use this actionable checklist to assess, prioritise, and enhance your cybersecurity strategy.

1

IDENTIFY VULNERABILITIES

Pinpoint gaps and weaknesses in your IT infrastructure that could expose your business to risks,

2

ANALYSE RISKS

Understand the impact of each threat on your operations, reputation, and bottom line.

3

PRIORITISE CRITICAL ISSUES

Address the most significant vulnerabilities first to reduce immediate risk.

4

TAKE ACTION

Deploy tailored solutions to fortify your defences and protect sensitive data.

5

REVIEW & MONITOR

Regularly evaluate your cybersecurity posture to stay ahead of emerging threats.
